General Information

The GRE® General Test and GRE® Subject Tests are taken by individuals applying to graduate, business and law programs. For more than 70 years, GRE scores have been used by admissions and fellowship panels at thousands of graduate programs around the world to supplement an applicant's undergraduate grades and other qualifications for graduate study.

GRE General Test

The GRE General Test measures verbal reasoning, quantitative reasoning, critical thinking and analytical writing skills—skills that have been developed over a long period of time and are not related to a specific field of study but are important for all. The test closely aligns with the types of skills that are required for success in today's demanding graduate programs, including business and law.

Test Structure Beginning September 22, 2023

The GRE General Test administered beginning on September 22, 2023, is composed of Analytical Writing, Verbal Reasoning and Quantitative Reasoning sections. Testing times are listed below.

- **Analytical Writing:** one section with one timed writing task—30 minutes
- **Verbal Reasoning:** one 18-minute section with 12 questions; one 23-minute section with 15 questions
- **Quantitative Reasoning:** one 21-minute section with 12 questions; one 26-minute section with 15 questions

Total testing time is 1 hour and 58 minutes.

[Learn more](#) about the content of the GRE General Test.

Test Structure Prior to September 22, 2023

The GRE General Test administered prior to September 22, 2023, is composed of Analytical Writing, Verbal Reasoning and Quantitative Reasoning sections. Testing times are listed below.

- **Analytical Writing:** one section with two separately timed writing tasks—30 minutes per task
- **Verbal Reasoning:** two 30-minute sections—20 questions per section
- **Quantitative Reasoning:** two 35-minute sections—20 questions per section

In addition, an unidentified unscored section is included and may appear in any order after the Analytical Writing section. It is not counted as part of your score.

Total testing time is approximately 3 hours and 45 minutes.

Test Administration

The test is administered throughout the year on computer at Prometric® test centers. The General Test may also be offered on specific dates at additional testing locations outside of the Prometric test center network. Refer to [available test locations and dates](#) for all testing locations.

The GRE General Test can also be taken at home everywhere that the GRE General Test is normally

available. The test is taken on your own computer at home or in a secure location and is monitored by a human proctor. If you take the at home test, you are required to have your computer scanned for a system check and for any software that may be used for an unfair advantage.

The at home test is identical in content, format and on-screen experience to the test taken at a test center and is offered around the clock, seven days a week. To view available test dates and times for the at home test, create or sign in to your ETS® Account and begin the registration process.

GRE Subject Tests

The GRE Subject Tests measure achievement in specific subject areas and assume undergraduate majors or extensive background in those disciplines. These tests are available in the following disciplines:

- Mathematics
- Physics
- Psychology

Beginning in September 2023, the GRE Subject Tests will be administered on computer worldwide on the dates below. At home testing will also be offered in most locations.

- September 16, 2024, through September 29, 2024
- October 17, 2024, through October 30, 2024
- April 21, 2025, through May 4, 2025

Testing time for the GRE Mathematics Test is 2 hours and 50 minutes. Testing time for the GRE Physics Test and Psychology Test is 2 hours. [Learn more](#) about the content of each of the GRE Subject Tests.

Note that the Chemistry Test was discontinued after the April 2023 administration. Scores will continue to be reported for five years after the test administration.

- Check the test [fees](#).
- Read the reschedule and cancellation policies (refer to page 6).

- Decide when you would like to take the test.
 - The General Test is offered year-round on a first-come, first-served basis. View seat availability for your preferred date and location.

The Name You Use When Registering

The first and last name you use when you register—and the spelling of that name—must exactly match (excluding accents) the name printed on the ID documents that you will present on the day of the test. On Test Day

What to Bring to the Test Administration

Testing in a Test Center

- Valid and acceptable identification

Testing at Home

- Valid and acceptable identification
- A mirror or mobile phone, to show the proctor your screen during check in, and
- Note taking materials, which can be:
 - A whiteboard with an erasable marker OR
 - One blank piece of paper inside a transparent sheet protector with an erasable marker (the paper must stay inside the transparent sheet protector)

Identification (ID) Verification

ID verification during check-in may include:

- Biometric voice and photo identification

ID Requirements

You are responsible for having valid and acceptable identification each time you test. Your ID requirements depend on your country of citizenship and where you plan to test. It is your responsibility to ensure that your ID documents are up-to-date and available on the day of the test.

- You are responsible for ensuring that the first and last name you used to register exactly matches (excluding accents) the name on the ID document(s) you will present to the at-home proctor or at the test center.
- If the test administrator or proctor questions the ID you present, you may be required to provide supplemental ID. If positive confirmation cannot be made, you may not be permitted to test, or your test score may be withheld.
- All test takers are encouraged to have with them at least two forms of acceptable ID each time they test. Prior admission to test based on a given ID document does not assure that document will be considered acceptable. Test centers are not required to hold your seat if you leave the center to obtain acceptable ID.
- Admission to the test center, or acceptance by a proctor for the at-home test, does not assure that the ID

you provided is valid or that your scores will be reported. All reported cases of questionable ID are subject to review and approval by the ETS Office of Testing Integrity. ETS reserves the right to withhold and/or cancel scores in the event that the ID requirements set forth herein are not met.

- At a test center, you may be required to show your ID and/or to sign a log at various points throughout the test administration.
- Your test fees will not be refunded if you are not permitted to test or if your scores are withheld or canceled because of invalid or unacceptable ID.

If you have been granted political asylum, have refugee status or are otherwise unable to meet the identification requirements, you must contact the ETS Office of Testing Integrity (OTI) at least seven days before registering to test. You must receive approval from OTI before you register. You should also be prepared to submit any requested documents to OTI for review prior to receiving approval. Testing Procedures and Regulations

General Guidelines

By submitting your registration for a GRE General Test and/or GRE Subject Test, you are agreeing to abide by all procedures and policies for all forms of test delivery (at test centers and at-home testing) contained in this *Bulletin*, on the GRE website or communicated to you at the test administration for which you have registered.

- Dress so that you can adapt to any room temperature.
- Food, beverages, tobacco and e-cigarettes are not allowed in the testing room.
- Weapons and firearms are not allowed in the testing room.

ON TEST DAY *continued*

- Test-related information written on clothing, footwear, ID documents or on any part of the body is prohibited.
- ETS respects individuals' privacy and has implemented procedures to ensure that the check-in process is completed in a respectful manner. ETS reserves the right to ensure the security of test content by using electronic detection scanning devices (e.g., hand-held metal detectors/wands) and may also employ additional security measures such as visual inspections for unauthorized testing aids or other wearable technology. Test takers should be prepared to undergo these security measures to ensure a fair testing environment. Failure to comply may result in dismissal from the test and forfeiture of your test fees.
- You may be asked to empty your pockets, raise your pant legs above your ankles, pull up your sleeves above your wrists for visual inspection, and you may be scanned with a hand-held metal detector wand. You may also be required to remove your eyeglasses for close visual inspection. Additional visual inspections of clothing, footwear, and ID documents may also be conducted. Such inspections are conducted during check-in and upon return from any unscheduled breaks. You may request that the inspections be performed by a staff member of the same gender and/or in an area sheltered from the view of other people. Test center staff will make every effort to accommodate such requests, but ETS cannot guarantee that all test centers will have the necessary staff and space available. If you wish to request a security screening done in private and/or by a staff member of the same gender, please contact ETS at: Email: TSReturns@ets.org; Phone: 1-800-750-6991 (toll free for test takers in the U.S., U.S. Virgin Islands, Puerto Rico, and Canada), +1-609-406-5430 (all other locations) Monday–Friday 7:30am–5:30pm U.S. Eastern time, except U.S. holidays.
- Unless an inspection is required for use or possession of an unauthorized aid during the test session, removal of footwear is prohibited in the testing room at the test center.
- If you have health-related needs that require you to bring equipment, beverages or snacks into the testing room or to take extra or extended breaks, you need to follow the accommodations request procedures described in the [*GRE® Bulletin Supplement for Test Takers with Disabilities or Health-related Needs*](#).
- **You are required to remain in the test center building or in the immediate area of your test.** It is your responsibility to ask the test administrator for permission to leave the testing room — for example, to go to the restroom. If you leave the testing room or test center without permission, you may be dismissed, your test fees may be forfeited, and your scores may be canceled.
- Visitors are not permitted in the testing room. Friends or relatives who accompany you to the test center are not permitted to wait in the test center or be in contact with you while you are taking the test. Only ETS/Prometric-authorized observers are permitted in the testing room.
- The testing session will be actively monitored by test center staff or at-home proctors. This includes staff

entering and walking around the testing room and/or video monitoring the testing session.

Note: ETS reserves the right to take appropriate action and/or notify appropriate authorities including, but not limited to, law enforcement authorities, if a test taker responds in a threatening or disturbing way to essay questions or communicates with ETS either verbally or in writing in a threatening or disturbing manner.

Personal Items

- Personal items other than ID documents are not allowed in the testing room and cannot be accessed during an unscheduled break, except for food, beverages or medication. This includes any phones; tablets; all wearable technology; all watches; and any other electronic, recording, listening, scanning or photographic devices. If you are seen using or accessing any of these electronic devices and/or transmitting data, including but not limited to text messaging, email and photographs, your device may be inspected and/or confiscated.
- Phones and all alarms must be turned off prior to testing. You may not access your phone during the test or during breaks to check messages, make a call, check the time, or for any other reason.
- Before the test, you will receive instructions from the test administrator regarding where to store personal items.
- Jewelry is prohibited, except for wedding and engagement rings. Do not wear other jewelry.
- Clothing and other personal items including hair accessories, neckties, bowties, hats, scarves, jackets and outerwear are subject to inspection by the test center administrator. Refrain from wearing such items as tie clips, cuff links, ornate clips, combs, barrettes, headbands and other hair accessories on test day, as you may be prohibited from wearing them in the testing room.
- If you fail to follow the instructions of the test center staff or at-home proctor, you will not be permitted to test and your test fee will not be refunded. Any violation of these procedures during the test or during breaks may result in dismissal from the test center and/or cancellation of your test scores.
- Test centers and ETS assume no responsibility for personal items including watches, jewelry or devices that you choose to bring to the test center.

Testing at a Test Center

The following procedures and regulations apply during the entire test session, which begins at sign-in, ends at sign-out and includes breaks.

- Your photo will be taken and you will be required to read and sign a confidentiality and regulations agreement at the test center agreeing to all rules and regulations. If you do not sign the agreement, you cannot test and your test fees will not be refunded.
- You may be asked to provide a voice sample before the test begins.
- ETS test centers are encouraged to follow local and governmental guidelines with regard to public health

ON TEST DAY *continued*

and safety. Test takers who wish to wear a mask while testing are permitted to do so.

- ETS reserves the right to ensure the security of test content by using electronic detection scanning devices (e.g., hand-held metal detectors/wands). ETS and its testing staff may also employ additional security measures such as visual inspections for unauthorized testing aids or other wearable technology. Test takers should be prepared to undergo these security measures to ensure a fair testing environment. Procedures have been implemented to make certain that all security inspections are conducted in a respectful manner. Failure to comply may result in dismissal from the test and forfeiture of your test fees.
- You may be required to sign a test center log before and after the test session and any time you leave or enter the testing room.
- The test administrator will assign you a seat.
- The test administrator will provide you with scratch paper for use during the test. Scratch paper is not to be used before the test or during breaks. During the test, if you have used all of your scratch paper, you must return it to the test center staff in order to receive more. You cannot remove a page or portion of the scratch paper at any time. All paper, in its entirety, must be returned to the test center administrator at the end of the testing session.
- The GRE tests use a standard English-language (QWERTY) computer keyboard. It takes its name from the first 6 letters in the third row of the keyboard. If you haven't used this kind of keyboard before, practice on one before test day to become familiar with it.
- If at any time during the test you have a problem with your computer, or for any reason need the administrator, raise your hand.
- Testing premises are subject to videotaping.
- The GRE General Test administered beginning September 22, 2023, does not include a break during the test.
- The GRE Subject Tests do not include a break during the test.
- If you need to leave your seat at any time, raise your hand; timing of the section will not stop.
- You will have access to an onscreen calculator during the Quantitative Reasoning sections of the General Test.
- An onscreen calculator is not available for the Subject Tests.
- Personal calculators are not permitted in the testing room unless approved as an accommodation.
- At the end of the General Test you will be given the option to report or cancel your scores. If you choose to report your scores, those scores will become a part of reportable history and cannot be canceled. Although you have the option to cancel your scores, consider very carefully before doing so because the score reporting choices available with the [ScoreSelect® option](#) allow you to report only the scores that you feel reflect your personal best. Your scores will be reported to GRE score recipients only at your request.
- If you choose to report your General Test scores, you will be able to view your unofficial Verbal Reasoning and Quantitative Reasoning scores at the test center. Because of the essay scoring process, you will not be able to view your Analytical Writing scores.
- If you choose to report your Subject Test scores, you will not be able to view them immediately after you complete your test due to the scoring process.
- Test centers cannot provide printed copies of unofficial score reports.
- After you view your General Test scores at the end of the test, you will be asked to designate up to four free score recipients and choose the [ScoreSelect® option](#) regarding which scores should be reported (Most Recent or All scores).
- If you do not select score recipients at the end of your test, or you would like to send your scores to more than four score recipients, you will need to submit an [Additional Score Report request](#) for a fee per score report.
- If you did not select score recipients to receive your Subject Test scores during test registration, or you would like to send your scores to more than four score recipients, you will need to submit an [Additional Score Report request](#) for a fee per score recipient.
- On occasion, weather conditions or other circumstances beyond the test administrator or ETS's control may require a delayed start or the rescheduling of your test appointment. In the event that a technical problem at the test center makes it necessary to cancel your test session, or if it is later determined that your scores could not be reported, you will be offered the opportunity to schedule another test appointment free of charge or receive a full refund of the original test fee. In addition, you may seek reimbursement from ETS for reasonable and documented expenses associated with traveling to the test center, even though technical problems are generally not the fault of ETS. To request reimbursement contact [GRE Services](#) with the following information within 30 days of your original appointment: your name, date of birth, mailing address, daytime telephone number, email address, original test date and registration appointment number, and a brief description of what occurred at the test center. All reimbursements will be made in U.S. dollars.

Testing at Home

- Dress appropriately with your ears and face visible to the proctor; avoid wearing jewelry and other accessories.
- Make sure your testing area is quiet and well lit, and the computer table or desk and surrounding area is clear.

- Make sure you are alone in the testing room. You are not permitted to test with other people in the room.

ON TEST DAY *continued*

 - Show your ID
 - Show your computer screen using a small mirror or your mobile phone
 - Show a 360-degree view of your room using your computer camera
- If you have a physical disability and require assistance in activities such as showing a 360-degree view of the testing room, please contact ETS Disability Services for accommodations.
- You may be asked to provide a voice sample before the test begins.
- Your entire session will be recorded and monitored by a human proctor, and your photo will be taken.
- You must remain in view of the proctor.
- You should avoid doing anything that may look suspicious, like talking out loud or looking away from the screen.
- Artificial intelligence technology will verify your ID throughout the test. Communication with any other individual during testing, other than the proctor, is not permitted.
- The GRE General Test does not include any scheduled breaks
- The Subject Tests do not include a break.

Dismissal from a Test Session

A test administrator or at-home proctor is authorized to immediately terminate your test, dismiss you from a test session and/or your scores may be withheld and ultimately canceled for any actions that violate the policies and procedures set forth herein and/or communicated during the test session including, but not limited to:

- Attempting to take the test for someone else or having someone else take the test for you.
- Failing to provide acceptable identification.
- Obtaining improper access to the test content, a part of the test or information about the test. This includes having test questions or answers in advance of the test administration and bringing pre-knowledge of test information into the test area in any form including, but not limited to, identification documents, clothing, footwear, prohibited devices and any other method listed as an aid in connection to the test.
- Using or having any prohibited device or wearable technology in your possession in the testing area.

- Failing to follow any of the test administration regulations contained in this *Bulletin*, on the GRE program website, given by the test administrator, at-home proctor or specified in any test materials.

ETS reserves the right to take all action—including, but not limited to, barring you from future testing and/or withholding or canceling your scores—for failure to comply with test administration regulations or the test administrator's directions. If your scores are canceled, they will not be reported, and your registration and test fees will not be refunded. Reports of cheating or fraud will be investigated thoroughly, and offenders may be prosecuted to the full extent of the applicable laws.

Canceling Scores

GRE General Test

At the end of the test, you will be given the option to report (view) or cancel your scores. Once you view your scores, you cannot cancel them. In addition, you cannot cancel your score for one section of the test and have the scores for the remaining sections reported. Although you have the option to cancel your scores, consider very carefully before doing so because the score reporting choices available with the [ScoreSelect® option](#) allow you to report only the scores that you feel reflect your personal best.

Your scores will be reported to GRE score recipients only at your request. If you cancel your scores, they will NOT be available for your review online or be reported to any score

recipients. No refund will be made. Canceled scores are not added to your reportable history. If you wish to take the test again, you must reregister and submit another test payment.

GRE Subject Tests

At the end of the test, you will be asked to indicate if you want to report (view) or cancel your scores. If you report your scores, they will be sent to the institutions that you designated during registration. If you cancel your scores, they will NOT be available for your review online or be reported to any score recipients. No refund will be made. Canceled scores are not added to your reportable history. If you wish to take the test again, you must reregister and submit another test payment.

Score Reinstatement

You can reinstate scores that you canceled within 60 days after your test date online in your [ETS Account](#). There is a fee to [reinstate your scores](#).

Also, you can designate up to four free score recipients. If you do not select score recipients, you will have to pay a fee [per recipient](#) to have scores sent at a later date.

Scores will be reinstated and reported approximately two weeks after your request for the General Test or on the approximate score reporting date for the Subject Tests. Your scores will be sent to your designated score recipients shortly thereafter.

Absence from a Test

If you are absent from a test administration, you will forfeit your test fee. Institutions will not receive any information about your absence or about any previous score(s) you may have on file.

Reporting Suspicious Behavior

ETS takes test security very seriously. Although GRE tests are administered under strict supervision and security measures, testing irregularities may sometimes occur. Please contact ETS as soon as possible to report any irregular behavior that is either observed or reported to you—for example, someone copying from another test taker, taking a test for someone else, having access to test questions before the exam or using notes or unauthorized aids. All information will be held in strictest confidence. Reports of cheating or fraud will be investigated thoroughly, and offenders may be prosecuted to the full extent of the applicable laws.

Score Reporting

Scores Reported

GRE General Test

The scores for the GRE General Test include:

- a Verbal Reasoning score reported on a 130–170 score scale, in one-point increments.
- a Quantitative Reasoning score reported on a 130–170 score scale, in one-point increments.
- an Analytical Writing score reported on a 0–6 score scale, in half-point increments. Descriptions of the analytical writing abilities characteristic of particular score levels are [available](#).

If no questions are answered for a specific measure (e.g., Verbal Reasoning), then you will receive a No Score (NS) for that measure.

GRE Subject Tests

Each Subject Test yields a total score on a 200–990 score scale, in 10-point increments, although the score range for any particular Subject Test is usually smaller.

For Physics and Psychology Tests taken beginning in September 2023, percent correct subscores are reported on a 0–100 score scale, in one-point increments.

For Physics and Psychology Tests taken prior to September 2023, equated subscores are reported on a 20–99 score scale, in one-point increments, although the range for any particular Subject Test subscore is usually smaller.

Percent correct subscores earned beginning in September 2023, should not be compared with scaled subscores earned prior to September 2023.

Getting Your Scores

If you take the GRE General Test, you will view unofficial Verbal Reasoning and Quantitative Reasoning scores immediately after you have completed your test; however, because of the essay scoring process, you will not view your Analytical Writing score at that time. Test centers cannot provide printed copies of your unofficial scores.

Official scores for the General Test will be available in your [ETS Account](#) and your scores will be sent to your designated recipients, about 8–10 days after your test administration.

Official scores for the Subject Tests will be available in your [ETS Account](#), and your scores will be sent to your designated recipients by the following dates:

Subject Test Dates	Score Reporting Date
September 16, 2024, through September 29, 2024	October 7, 2024
October 17, 2024, through October 30, 2024	November 7, 2024
April 21, 2025, through May 4, 2025	May 12, 2025

- You will receive an email notification from ETS that your official scores are available in your [ETS Account](#) and that official score reports have been sent to your designated score recipients.
- Visit your [ETS Account](#) to view your scores and print your official Test Taker Score Report. Note that your official Test Taker Score Report is intended only for your information and personal records.

Reporting Your Scores

Reportable History

Scores are reportable for five years following your test date. For example, scores for a test taken on July 3, 2022, are reportable through July 2, 2027.

NOTE: It takes approximately five business days to process requests to send GRE scores. If you plan to send scores and the date at which your scores are no longer reportable is approaching, allow enough time for processing or your scores may not be sent.

ScoreSelect® Option

With the [ScoreSelect® option](#), you can decide which test scores to send to the institutions you designate.

On test day*, when viewing your General Test scores after you have completed the test, you can choose not to send your scores at this time, OR you can select either option below for each of your four FREE score reports.

- **Most Recent**—Send your scores from your current test administration.
- **All**—Send your scores from all administrations in the last five years.

After test day, you can send Additional Score Reports for a fee by selecting from the following options for each score report you would like to send:

- **Most Recent**—Send your scores from your most recent test administration.
- **All**—Send your scores from all test administrations in the last five years.
- **Any**—Send your scores from one OR as many test administrations in the last five years

Scores for a test administration must be reported in their entirety. Institutions will receive score reports that show only the scores that you selected to send to them. There will be no special indication if you have taken additional GRE tests.

*If you are taking a GRE Subject Test, you will make your selections during test registration.

Note: Some programs require applicants who have taken a GRE test more than once to report the scores from all of their GRE test administrations. Therefore, it may be helpful to check with the programs to which you are applying about their GRE score requirements.

Score Reports Sent to Designated Recipients

- Your [official institution score report](#), received by your designated recipients, will include your name, address, email address, phone number, intended graduate major, GRE test scores and associated percentile ranks (based on a recent three-year period). It will not include any information concerning the other score recipients you have chosen.
- Institution score reports will include only the scores that you selected to send them using the [ScoreSelect® option](#).
- If an institution that you have designated to receive your scores requests information in ETS's files be sent to that institution, ETS will send information to that institution as necessary to detect or prevent unlawful activity and to protect the integrity of the GRE test.
- Vouchers from Organizations: If an organization has provided you a voucher to take a GRE test, your use of the voucher authorizes the sponsoring organization to receive your test scores.
- ETS makes available test-taker photos from General Test and Subject Test administration, and essay responses on the Analytical Writing section of the General Test, to designated score recipients in the ETS® Data Manager. Photos and essay responses from each administration you select from your five-year reportable history will be made available as part of your score record to the institutions you designated to receive your scores.

Ordering Additional Score Reports (ASRs)

You can order additional score reports (ASRs) online in your [ETS Account](#). You can select to send scores from any test administration of the General Test and/or Subject Tests. ASRs can be ordered for up to five years following your test date. Once an order is placed it cannot be canceled, changed or refunded. There is a fee to [order ASRs](#).

If scores for the test administration have been reported, score reports will be sent to your designated institutions approximately five business days after your order is placed.

If scores for the test administration have not been reported, your scores will be reported on or after the date they become available.

Changes to your mailing address can be processed online in your [ETS Account](#) or by contacting [GRE Services](#).

If Your Name Has Changed

Name changes can be processed upon submission and approval of the appropriate documentation to ETS. If you are sending scores and your name has changed since you took the test, contact [GRE Services](#) for assistance.

Preventing Unauthorized Release of Your Scores

Your scores will be reported only to you, to institutions of higher education granting the baccalaureate or higher degrees, to approved graduate fellowship-granting sponsors and to vendors the score recipients might designate to process the scores they receive. Score reports will be released only upon your request. ETS will not release your scores at the request of institutions or fellowship sponsors except for use in research studies that are approved by the GRE Board and that provide anonymity for the test takers and the institutions they attend.

Note: Your score record and the documents you completed that are retained at ETS, including photos and documents from check-in on test day, may be released to third parties, e.g., government agencies, parties to a lawsuit, if requested pursuant to a subpoena or required by applicable law.

Your request must be received at ETS within 90 days of your test administration. Allow four weeks for the results to be mailed. Note that you will not be able to report your scores to designated score recipients until the review process is completed. If the score review results in a higher or lower score, the new score will be reported.

Test Takers' Background Information Data and Performance Data

Your answers to background information questions and your performance data may be used in analysis samples, score interpretation data, group statistics and research studies. Your essay responses may be used in ETS materials to train scorers, to help score recipients interpret scores or to help test takers prepare for the test. In each instance, all identifying information will be removed.

Cancellation of Scores by ETS

ETS strives to report scores that accurately reflect the performance of every test taker. Accordingly, ETS's standards and procedures for administering tests have three primary goals: giving test takers equivalent opportunities to demonstrate their abilities, preventing any test takers from gaining an unfair advantage over others, and providing score users with valid scores. To promote these objectives, ETS reserves the right to review questionable test scores which may delay expected score reporting time frames, cancel any test scores with forfeiture of test fees, whether or not it has already been reported, and to take such other actions as ETS deems appropriate, including banning the test taker from taking any future ETS tests and referring the matter to law enforcement authorities and government agencies including but not limited to immigration departments, when, in ETS's judgment, a testing irregularity occurs; there is an apparent discrepancy in a test taker's identification; the test taker may have engaged in misconduct, including without limitation having someone else take the test for them, obtaining improper access to test questions or answers, disclosing test questions or answers to third parties, plagiarism, or copying or communication; or the score is invalid for another reason.

ETS reserves the right to share any and all information in its possession about a test taker and the terms and conditions of test taking with any third party, including but

not limited to (a) any entity which ETS recognizes as an authorized user of test scores, including without limitation any entity to which ETS reports test scores at the test taker's request, and (b) any government agency with responsibility for administration or enforcement of U.S. criminal and/or immigration laws. When ETS cancels a test score that has already been reported, it notifies score recipients that the score has been canceled and may also explain why the score has been canceled.

Testing Irregularities

"Testing irregularities" refers to problems with the administration of a test. Testing irregularities may result from actions of test takers, test center personnel, ETS, or from natural or man-made causes. When testing irregularities occur, they may affect an individual or groups of test takers. Such problems include, without limitation, administrative errors (such as improper timing, improper seating, defective materials [e.g., improper test forms], and defective equipment); improper access to test content; and other disruptions of test administrations (such as natural disasters or other emergencies). When testing irregularities occur, ETS may decline to score the test or cancel the test score. When, in ETS's judgment it is appropriate to do so, ETS gives affected test takers the opportunity to take the test again as soon as possible without charge.

Identification Discrepancies

When in ETS's judgment, or the judgment of at-home proctors or test center administrators, there is a discrepancy in a test taker's identification, the test taker may be dismissed from the test center or the at-home test session may be terminated. In addition, ETS may decline to score the test or cancel the test score if the documents or your photo or biometric samples from test day cannot be validated or if ETS has evidence that you did not appear for the test. ETS will also cancel your scores, ban you from taking any future ETS test and notify score recipients of the cancellation if anomalies are detected after your scores have been reported.

Misconduct

When ETS, at-home proctors or test center administrators find that there is misconduct in connection with a test, the test taker may be dismissed from the test center or ETS may decline to score the test or may cancel the test score. ETS also reserves the right to ban the test taker from taking any future ETS test. Misconduct includes, but is not limited to, noncompliance with the [test center procedures and regulations](#). Test takers whose scores are canceled will forfeit their test fees and must pay to take the entire GRE test again at a future administration. No record of score cancellations, or the reason for cancellation, will appear on future score reports sent to colleges, universities and/or fellowship sponsors.

Invalid Scores

ETS may also cancel scores if, in its judgment, there is substantial evidence that they are invalid for any other reason. Substantial evidence means evidence that is sufficient to persuade a reasonable person; the substantial evidence standard is lower (i.e., requires less

proof) than the reasonable doubt, clear and convincing, and preponderance of the evidence standards. Evidence of invalid scores may include, without limitation, discrepant handwriting, unusual answer patterns and inconsistent performance on different parts of the test. Score cancellation decisions are not subject to appeal to ETS.

For test takers within the United States, before canceling scores based on substantial evidence of invalidity, ETS notifies the test taker in writing about its concerns, gives the test taker an opportunity to submit information that addresses those concerns, considers any such information submitted, and offers the test taker a choice of options. The options may include voluntary score cancellation, a voucher for a future test or arbitration in accordance with the ETS standard Arbitration Agreement. The final decision whether to cancel scores based on substantial evidence of invalidity is made by the ETS Office of Testing Integrity after reviewing any information addressing ETS concerns submitted by the test taker.

If at any time before, during, or after a review of questionable scores, ETS finds that misconduct has occurred in connection with a test, ETS may treat the matter under its misconduct procedures; in that event, the options available under this “Cancellation of Scores by ETS” section or the “Testing Irregularities” section, as applicable, will not be available, even if those options were previously offered.

Note: Only test takers taking the test in the United States will have the arbitration option at the time of the test.

Plagiarism

Your essay responses on the Analytical Writing section will be reviewed by ETS essay-similarity-detection software and by experienced essay readers during the scoring process. In light of the high value placed on independent intellectual activity within graduate schools and universities, your essay response should represent your original work. ETS reserves the right to cancel test scores of any test taker when an essay response includes any of the following:

- text that is unusually similar to that found in one or more other GRE test essay responses;
- quoting or paraphrasing, without attribution, language that appears in any published or unpublished sources, including sources from the Internet and/or sources provided by any third party;
- unacknowledged use of work that has been produced through collaboration with others without citation of the contribution of others;
- essays submitted as work of the test taker that appear to have been borrowed in whole or in part from elsewhere or prepared by another person.

When one or more of the above circumstances occurs, ETS may conclude, in its professional judgment, that the essay response does not reflect the independent writing skills that this test seeks to measure. When ETS reaches that conclusion, it cancels the Analytical Writing score, and because Analytical Writing scores are an integral part of the GRE General Test scores, those scores are canceled as well.
